

SOLERO® P7 PRO

The Solero Prostor P7 wall parasol is available in four sizes: two square editions of **250cm and 300cm** and a round version with a size of **350cm or 420cm diameter**. No matter which size you choose, the P7 wall parasol is always easily handled.

With the integrated gas spring supporting you, you'll open and collapse the parasol in a flash. Despite of its size, the Solero Prostor P7 is very easy to move left or right. As the weight of this space saving parasol is smartly shared between the top and bottom rotating brackets, you'll instantly move the shadow to where you want it to be. The canvas is 100% acrylic and is painted in mass, it weighs 290 grams per square meter and has a colorfastness of 7-8 on a scale of 8. Acrylic is water resistant and filters out 95-100% of UV radiation, expressed as UPF 50+. The canvas is washable and if necessary easy to replace.

SUPER-LIGHT OPERATION

The controls are extra light thanks to the steel gas spring that compensates the weight of the parasol. Do you want to use the parasol in a wet- or sea climate? Then the optional stainless steel gas spring is definitely recommended.

CHOOSE FROM 4 FRAME COLOURS

The framework for this parasol is RAL 9007 by default, this is a gray structured lacquer. It's possible to get a black or white frame in case you need it, but this will have an additional cost and a longer lead time. You'll have the choice between RAL9007 (gray), RAL 9016 (white matte) or RAL 9005 (black, matte) and Alucopper. The Prostor P7 can be mounted to the wall with 2 adjustable brackets. The P7 wall parasol has an optimal turn when mounted on a corner. The locking axis helps lock the parasol down so it doesn't turn in the wind.

EASILY MANEUVERABLE

Move your parasol around effortlessly thanks to the swiveling wheels with brakes, this is only available for the P7 Uno parasol. Optional for the Prostor P7 tile pedestal is an aluminum cover, lacquered in the pole's color for a tile pedestal of 90x90 or 100x100 cm.
