## A CRYSTAL ANNIVERSARY

This year, Solero celebrates its 15th anniversary. As icing on the cake, we also received our – already – sixth Gazelle award from the Financieele Dagblad. It's a great compliment for our family business. Although you never truly get used to knowing you are one of the fastest growing companies in the Netherlands.

Becoming the biggest has never been our goal. Our goal is to be and remain the best. That is why in the winter, we mainly focus on improving our products, processes, website and brochure.

---

## DIAMONDS IN THE ROUGH

The next five years, we will focus on preparing the next generation. In addition, we will continue to invest in long-term relationships with our customers and suppliers. A way of working that has brought us to where we are today. Polishing an independent and ambitious generation is a special experience for me.

---

## THE TRICKS OF THE TRADE

It feels like teaching your children to cycle without safety wheels. Nerve-wracking at first, but with a great payoff. We teach a new generation all the tricks of the trade, so that we can pass the torch with confidence.

Kind regards, Helga van Keulen - CEO

## SOLERO® SUBLIMO PRO

The Sublimo has a contemporary and sleek design with beautiful lines that instantly adds a dimension to your garden, balcony or terrace. This trendy parasol is equipped with four crossed ribs and is incredibly easy to operate. The Sublimo truly stands out above the crowd.

Each Solero parasol has its own character, and that certainly goes for the Sublimo. He's sleek, modern and has a specific, headstrong appearance. The Sublimo is available in two sizes, the square **200x200 cm** and the **round 300 cm** version. These parasols are equipped with a perfect fitting gray protection cover.

### EXTRA ATMOSPHERE

The Solero Accento click-on light fits around the mast of the Sublimo, it's a nice addition that gives the parasol just a little bit more appeal. When you point the lamp downwards you can easily read a book under it, but when you turn the Accento click-on light around you'll create indirect mood lighting, which is ideal to make the summer nights last a little longer.

### UNIQUE PUSH-UP SYSTEM

Using the unique push-up system, the Sublimo is opened in two seconds, after which you find yourself relaxing in the shade below the fade resistant square cloth measuring 200 x 200 cm  $\phi$  300 cm. Through the integrated rib springs the canvas always remains tight, on top of that the canvas is watertight and colorfast, we even warranty the colorfastness for 4 years!

### ANODISED FINISH

Every metal part of the Sublimo is anodized. With a special treatment, the metal is equipped with a slightly glossy layer that looks great and protects against corrosion and tear and wear.

## SOLERO® VATICANO PRO

The Solero Vaticano with a **250 cm diameter** is a unique combination of a refreshing yet classic design. This parasol only takes little space, while its wide span and swiveling cloth offer plenty of shade. The Vaticano is an excellent add-on to virtually every decor style of your garden, balcony or terrace.

The fade resistant O'Bravia cloth, guarantees years of pleasure from this stylish trendsetter. The Vaticano looks classy and cheerful, the system operates handy and smoothly. The 24 flexible ribs ensure that the fade resistant cloth is always tensioned. Simply tilt the parasol to 45° to enjoy the shade, even when it's hanging low in autumn, exactly how you want it. Named after the dome in Vatican City, this parasol also does not take much room, while leaving a formidable impression with your guests.

## STRONG AS IRON BUT LIGHT AS A FEATHER

It's rare for a parasol with a 250 cm. span width to be handled so lightly. The Vaticano is humble while being operated, but shows grandeur in its performance. And of course you'll receive a stylish gray protective cover with your order. The Solero Accento click-on light fits around the mast of the Vaticano, it's a nice addition that gives the parasol just a little bit more appeal.

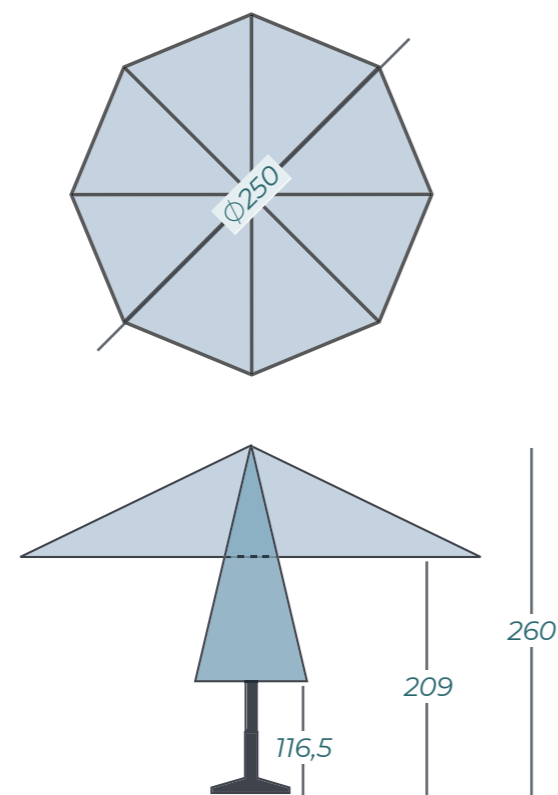

## BOTH FEET ON THE GROUND

The Vaticano can be securely fastened in several ways, for example, you can choose to go for a mobile, fillable pedestal, a ground anchor that can be settled in the ground while pouring concrete, or a granite pedestal of 60 kg with wheels. It's your choice to pick whichever option is easiest for your patio.

## 24 FLEXIBLE RIBS

The 24 ribs of the Vaticano keep the canvas nice and tight, even if the parasol is tipped, this way the setting sun can be blocked out without having to worry about a little wind.

## SOLERO® TEATRO PRO

The Teatro parasol is the smallest member of the Solero family. This garden parasol has a cloth **diameter of 270cm**. The parasol cloth is made of a solid, heavy quality and is guaranteed to be fade resistant. The parasol cloth is made of a solid, heavy quality and is guaranteed to be fade resistant. After a number of years your blue parasol will be, well, still blue!

You can turn the Solero Teatro open and closed within a few seconds and the parasol is very easy to transport. So the Solero Teatro is also a welcome item at the campsite. But particularly in your garden, it will serve you well. Definitely with the Solero Accento click-on light.

### “SHINE A LIGHT ON ME”

The Solero Accento click-on light fits around the mast of the Teatro, it's a nice addition that gives the parasol just a little bit more appeal. When you point the lamp downwards you can easily read a book under it, but when you turn the Accento click-on light around you'll create indirect mood lighting, which is ideal to make the summer nights last a little longer.

### DYED BEFORE WEAVING

The canvas is made of a durable heavy quality and is guaranteed colorfast. Blue will remain deep blue, even after several years. Every fiber is colored individually before being weaved. On top of that, we'll provide you with a gray protective cover for your parasol, free of charge.

### THE CHOICE IS YOURS

The Teatro can be securely fastened in several ways, for example, you can choose to go for a mobile, fillable pedestal, a ground anchor that can be settled in the ground while pouring concrete, or a granite pedestal of 60 kg with wheels. It's your choice to pick whichever option is easiest for your patio.

## SOLERO® CIELO PRO

The Solero Cielo Pro **260x260 cm** just belongs at home in your garden. This heavy, cantilever parasol has a 260cm\*260cm diameter. With its innovative control system you can open or collapse this quality parasol in a flash.

It's very easy to put this parasol into different skewing positions, without having to use the least bit of force. The firm base of the Cielo parasol is equipped with a clever turning mechanism. You can rotate this garden parasol easily and in 360 degrees by simply pressing the foot pedal. By releasing this pedal, this handy floating parasol will be automatically locked in its position.

## EXTEND THE COSINESS

With the Cielo Pro comes the Solero Accento. This fantastic Solero Accento is provided with a charger. Using this, you can charge high quality batteries in a matter of hours. With the Cielo Pro parties can last longer, and it'll remain cozy for much longer.

## PLENTY OF SHADE

The Cielo Pro by default is delivered with a set of free cross feet. Would you like to anchor the parasol on your patio? In that case you can order the special ground anchor.

## BLACK STAYS BLACK

The canvas is made of a durable heavy quality and is guaranteed colorfast. Black will remain deep black, even after several years. Every fiber is colored individually before being weaved. On top of that, we'll provide you with a gray protective cover for your parasol, free of charge.

## SOLERO® LATERNA PRO

Lounging, reading and relaxing on your terrace? Or enjoying those nice summer days with friends and family? The Laterna will bring your holiday to your own garden.

By using exclusively high quality materials we promise you'll enjoy your luxurious floating parasol for years to come. Due to its generous sizes (**300x300 cm or Ø 350 cm**) this parasol turns any outdoor area into a welcoming space for large and small groups. Despite its size, it's easy to handle and can be moved into any position with the one smooth move. Would you prefer not to have an unsightly pedestal or heavy tiles on your patio? This parasol can be anchored into the ground quickly and aesthetically.

### ALWAYS UNDER TENSION

The Laterna is delivered with a silver frame and comes with a complimentary protective cover. You'll also receive a wireless, rechargeable free lighting! The Laterna parasol cloth is kept tight in a beautiful way by its integrated rib ends.

### FOLLOW YOUR INTUITION

With this luxurious floating parasol you'll get the maximum ease of use in your garden. The parasol has an intuitive control rod that allows effortless opening, closing and tilting. You can also rotate the parasol 360 degrees.

### WIND VENTILATION ROOF

You'll always stay cool under the Solero Laterna. The square version is outfitted with a special wind ventilation roof. The round version has a wind catcher as well, but this isn't lifted up as high from an esthetical point of view. On (too) hot days the canvas also releases heat instead of capturing it under the parasol. On top of that, this helps the parasol gain stability. When wind flows under the parasol it'll easily be released.

## SOLERO® PRESTO PRO

Presto Italian for 'quick', the newest edition to the Solero hospitality parasols lives up to its name. With the unique easy-turn system the Presto **330x330 cm or 400 cm round** is opened in a flash.

Collapsing it is even done almost fully automatic. As soon as you release the button, the Presto parasol instantly slides back into its closed position. An ideal solution for the hospitality industry, it truly helps you get home quickly after a long day of work! Using just two fingers you can open and close this parasol, ideal for hospitality where everybody needs to be able to open or close the parasol. We're definitely not forgetting about the users who have less strength in their hands, the Presto is definitely a good choice for this group of users as well.

## CLOSE OVER TABLES AND CHAIRS

The biggest advantage of the Presto is the closing height, this is the distance from the ribs to the ground. The Presto has a telescopic frame that's often used in hospitality, allowing the parasol to essentially rise up the moment it's closed. This allows tables and chairs to remain under the parasol when it's closing.

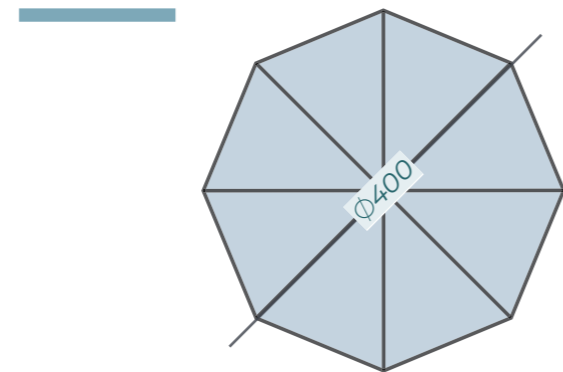

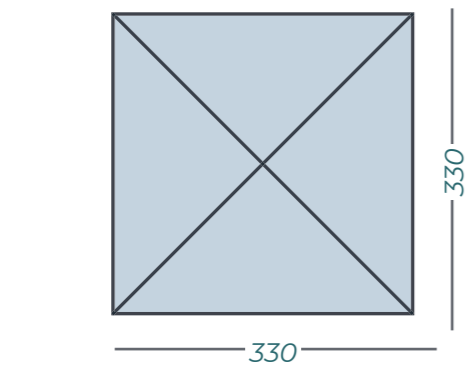

## CHILD'S PLAY

With the easyturn knob you'll really open the parasol in just 2 seconds. Closing it is almost automatic. As soon as you turn the knob back, the Presto parasol will slide into the closed position. The Solero Presto is delivered with a robust mast of 63mm with a chic silver gray finish.

## ALWAYS A GREEN CHOICE

The special colorfast canvas of the Presto is, just like our other canvases, outfitted with a water repellent coating. The Presto parasol is also 100% recyclable. Good for the environment, and great protection for you. The canvas has a UPF value of 50+. Of course you'll receive a protective cover with your parasol to be able to store it safely on the moments you're not using it.

## SOLERO® PALESTRO PRO

Eat, drink, talk, play, enjoy, that's what your garden is for. The Palestro improves these experiences. This floating parasol turns over your dining table and over the lawn for your children.

The Palestro turns above the terrace to linger in the evening. And of course its fully kids proof, as its securely mounted with its ground anchor. A modern design that still fits in every backyard. Robustly designed to be able to take a hit and with a colorfast canvas that'll last for years. It has a large size, a surface of 12 or 16 square meters, allows everyone to find their favorite spot in the shade.

Palestro is available in **300x400 cm and 400x400 cm**. take into account that the mast of the Palestro is on the largest side with the 300x400 cm version!

## ROBUST DESIGN

A sleek design that fits in every garden. The large 400 x 400 cm or 300x400 cm cloth ensures that everybody finds its favorite place in the shadow. Its robust design ensures it can stand a rough handling and the fade resistant cloth that looks brand new for years. The Palestro is an add-on for the entire family, that quickly becomes a part of your outside.

## FLEXIBLE AND COMPLIANT

The Palestro proves that being big and beautiful doesn't have to be hard. With the nifty rotating mechanism and supple winch you'll turn and tilt this parasol easily in any direction. That way you'll easily enjoy all of its qualities.

## WITH ONE CLICK

The fantastic Solero Accento lighting is delivered with the Palestro and is provided with a charger. Using this, you can charge high quality batteries in a matter of hours. With the Palestro parties can last longer, and it'll remain cozy for the whole night.

## SOLERO® MAESTRO PRO

Are you looking for a large square parasol for the hospitality industry? One with a fade resistant cloth and a solid appearance of **300x400 cm or 400x400 cm**? Preferably one with a great quality and a low pricing that is easy to handle? The Solero Maestro Pro parasol makes for a great offer for just that need!

The Maestro Pro forms a perfect protection from the sun for the hospitality industry. This square parasol has a very large surface, but is handled just as easy as our other models. A waiter or waitress will be able to open or close this parasol in a flash. The frame is made of aluminum and if necessary, you can attach gutters against the rain. That way you and your guests can enjoy your patio under the waterproof parasols.

## PERFECT FOR HOSPITALITY

Many patios home and abroad are covered by the Maestro Pro. The special O'Bravia canvas is of a durable, heavy quality, colorfast and waterproof. The Maestro won't change colors after several seasons. The frame is made of aluminum and if necessary, you can attach gutters against the rain. That way you and your guests can enjoy your patio under the waterproof parasols.

## YOUR LOGO ON THE EDGE

The Maestro parasol is equipped with a telescopic mast, this means that the mast lowers when it's opened and rises when it closes. A big advantage, especially for hospitality, is that furniture doesn't have to be moved, it can just stay in place. The Maestro Pro is perfect to get printed on as well; logo's and text will be legible and can be printed on in our shop, ask us for your options and pricing!

## MASTERFUL OPERATION

The Maestro is so easy to use that everyone can do it. Because of that, the control rod can be removed so that you alone can open or close the parasol when necessary.

## SOLERO® BASTO PRO

How does one look at your terrace from afar? The remarkable and robust appearance of the Basto radiates taste and quality. The unique character of this parasol, operated very smoothly with its detachable winch, adds a great deal of appeal.

A sleek design with straight lines, that also looks marvelous while looking upwards to its eight stylishly decorated ribs. And it's a big one, as the squarely designed Basto is available in the sizes **400x400 cm** and **500x500 cm**. The Basto is equipped with a telescopic mast, that means the mast slides down when being opened, and up when being closed. This allows the parasol to open and close above a table. A large advantage for hospitality entrepreneurs because tables and chairs don't have to be constantly moved when opening or closing the parasol. The frame of the Solero Basto is made out of high quality aluminum. It's relatively lightweight and is very strong, the material also lasts against corrosion and is recyclable.

## CARE-FREE AND MAINTENANCE-FREE

The colorfast O'Bravia canvas with 300 gramss thickness is especially robust and guarantees years of worry- and maintenance free enjoyment. This large surface is easy to operate. Sometimes style and efficiency do go very well together. Even after several seasons the parasol will not discolor. The frame is made of a heavy aluminum construction and if you require it can have gutters attached to protect against the rain.

## TAKE CONTROL

The control rod allows the operation of the winch, it applies pressure to the cables or relieves it. By why a removable control rod? Especially in hospitality it's a good idea to remove the control rod from the parasol so it can't easily be stolen, or have unauthorized people operate the parasol.

## YOUR LOGO IN THE SUN

Would you like your company name or logo in the spotlight? That's possible. The canvas of the Basto hospitality parasol is perfect for printing on. When purchasing the Basto you'll receive a gray protective cover free of charge, which is equipped with a dirt- and water resistant coating and a modest logo.

## SOLERO® FARO

This hospitality parasol with aluminium frame is extremely suitable for covering large terraces. The telescopic model makes this parasol very suitable for professional use.

Faro is available in the sizes **500x500 cm**, **500x600 cm** and **600x600 cm**, so you can create up to 36m<sup>2</sup> of shade with the Solero Faro. Solero's Faro is available with an anthracite aluminium or white aluminium frame. The ribs are produced in the same colour.

## SUPER-STRONG COLOUR PIGMENT

Solero Faro comes with a 350gr/m<sup>2</sup> acrylic cloth and is available in six stylish colours: ecru, terracotta, bordeaux, grays taupe, white and black. This cloth is colourfast, water-repellent and protects against harmful UV radiation.

## A PARASOL FOR LIFE

Aluminium has a high resistance to corrosion due to the protective oxide layer that naturally arises on aluminium. This layer protects the aluminium against the outside air. This process is enhanced by powder coating the aluminium. This creates an even stronger protective layer, making rust a thing of the past.

## COAT ON

In order to keep the Faro in optimal condition, we applaud the use of the included protective cover. This means the cloth is not unnecessarily exposed to outside influences and keeps it in the best condition.

## SOLERO® P4 PRO

In some situations it's not desirable or even possible to anchor a parasol in your terrace. This might be solved by using a mobile parasol base, but this often turns out to be in everyone's way. Especially if you want to use every inch of your terrace or balcony, the Solero wall parasols make for a great alternative.

The Solero Prostor P4 wall parasol **Ø270 cm** will always be delivered to you with a built-in pressured gas spring. This allows for a very smooth handling! Using the handle this unique wall parasol can be fixed into a horizontal position with a touch. Additionally you can also extend the length of the black handle from 140 up to 180 cm.

## EASY OPENING SYSTEM

Our patented 'Easy Opening System' makes using this parasol easy and will help save on space. By using the telescopic arm the parasol can be extended 140 to 180 cm from the wall. The Prostor P4 can be tilted horizontally up to 10 degrees, which can be very useful with a setting sun.

## 100% OLEFIN

The canvas of the parasol is 100% Olefin and is painted in the mass, it weighs 190 gramss per square meter and has a colorfastness of 7-8 on a scale of 8. Olefin is water resistant and filters over 97% of UV radiation; this is expressed as UPF 40+. The canvas can be washed and if necessary is easy to replace.

## EYE-CATCHER

The arm and the frame of the parasol is finished in anodized aluminum, making the parasol lightweight and a real eye catcher in your backyard. A protective cover is provided free of charge, this allows you to greatly lengthen the lifespan of this nice wall mounted parasol.

## SOLERO® P6 PRO

The Solero Prostor is much more than just a parasol, it's an easily retractable canopy with a lot of features. The setup consists of a central pole which can accommodate up to four parasols. Using the patented control system, including a gas spring, the parasols are easily collapsed. You can open or collapse every cloth individually. Possible sizes are **250x250 cm, 300x300 cm, 350 cm round** or **420 cm round**

Solero P6 Pro comes with a sound aluminum mast that allows 1, or up to 4 canvases to be mounted. Opening and closing is as simple as it's genius. With the one-move system the parasol slides into the open position. You don't have to be really strong to open this! The canvas is 100% acrylic and is painted in mass, it weighs 290 grams per square meter and has a colorfastness of 7-8 on a scale of 8. Acrylic is water resistant and filters out 95-100% of UV radiation, expressed as UPF 50+. The canvas is washable and if necessary easy to replace.

## A PUSH IN THE RIGHT DIRECTION

The controls are extra light thanks to the stainless steel gas spring that compensates the weight of the parasol. Do you want to use the parasol in a wet- or sea climate? No problem, that's what the stainless steel gas spring is designed for.

## ON THE GROUND OR ON THE WALL

This parasol is available as a wallmounted parasol in single or dual variations. The pole can be easily mounted to the wall with 2 brackets. That way you can enjoy a stylish parasol with a pole or tile pedestal. Unfortunately this isn't possible for our round variations. The framework for this parasol is RAL 9007 by default, this is a gray structured lacquer as shown in the photo. It's possible to get a black or white frame in case you need it, but this will have an additional cost and a longer lead time. You'll have the choice of RAL 9016 (white matte) or RAL 9005 (black, matte), Alucopper and Alupolished.

## FLEXIBLE IN THE HIPS

Move your parasol around effortlessly thanks to the swiveling wheels with brakes, this is only available for the P6 Uno parasol. Optional for the Prostor p6 tile pedestal is an aluminum cover, lacquered in the pole's color for a tile pedestal of 90x90 or 100x100 cm.

## SOLERO® P7 PRO

The Solero Prostor P7 wall parasol is available in four sizes: two square editions of **250cm and 300cm** and a round version with a size of **350cm or 420cm diameter**. No matter which size you choose, the P7 wall parasol is always easily handled.

With the integrated gas spring supporting you, you'll open and collapse the parasol in a flash. Despite of its size, the Solero Prostor P7 is very easy to move left or right. As the weight of this space saving parasol is smartly shared between the top and bottom rotating brackets, you'll instantly move the shadow to where you want it to be. The canvas is 100% acrylic and is painted in mass, it weighs 290 grams per square meter and has a colorfastness of 7-8 on a scale of 8. Acrylic is water resistant and filters out 95-100% of UV radiation, expressed as UPF 50+. The canvas is washable and if necessary easy to replace.

## SUPER-LIGHT OPERATION

The controls are extra light thanks to the steel gas spring that compensates the weight of the parasol. Do you want to use the parasol in a wet- or sea climate? Then the optional stainless steel gas spring is definitely recommended.

## CHOOSE FROM 5 FRAME COLOURS

The framework for this parasol is RAL 9007 by default, this is a gray structured lacquer. It's possible to get a black or white frame in case you need it, but this will have an additional cost and a longer lead time. You'll have the choice between RAL9007 (gray), RAL 9016 (white matte) or RAL 9005 (black, matte), Alucopper and Alupolished. The Prostor P7 can be mounted to the wall with 2 adjustable brackets. The P7 wall parasol has an optimal turn when mounted on a corner. The locking axis helps lock the parasol down so it doesn't turn in the wind.

## EASILY MANEUVERABLE

Move your parasol around effortlessly thanks to the swiveling wheels with brakes, this is only available for the P7 Uno parasol. Optional for the Prostor P7 tile pedestal is an aluminum cover, lacquered in the pole's color for a tile pedestal of 90x90 or 100x100 cm.

## SOLERO® CABANA PRO

You would love to have a system which you can use the whole year through? This Cabana is the answer to your desires. This summery roof from Prostor is delivered as a semi ready package, so it's easy to move around. Available in **350x350 cm** and **350x300 cm** and delivery from stock. The Solero Cabana is a roof that quickly gives your backyard a lot extra.

The Solero Prostor Cabana brings the summer into your garden. The system is light as a feather thanks to the elegant, aluminium construction. You can easily open and close the cloth. This allows you to effortlessly aim the shade to where you want it.

### NAILED TO THE GROUND

The specially developed L-profile can be bolted into the ground under the feet of the Cabana. This way the pergola is steady on it's feet and nearly all screws and bolts are removed from sight. The plate cover is an option for the Cabana, it protects the PVC-canvas of your Cabana against rain, dirt and dust the moment your canvas is folded in. This profile is white lacquered in the color of the frame and canvas.

### POLYVINYL CHLORIDE ROOF

Moreover, the cloth is waterproof. No more carrying around tables and chairs. This great lounge area provides good cover, even during summer rains.

### AFTER RAIN

... comes sunshine. Thanks tot he superior quality of the PVC cloth, you enjoy your Cabana in all weather conditions; it offers protection against both the sun and the rain.

## HEATING & LIGHTING

It's been a nice day, the sun is slowly setting and it's starting to cool down. With the help of heating and lighting we can bring back the sun for a little while on the patio or in your backyard.

Our patio heaters are perfect for use in hospitality but are also available for consumers. They create a comfortable atmosphere and are available in multiple colors, the design isn't ostentatious but looks stylish. The heaters are easy to install, easy to direct and suitable both in- and outdoors, the machine is lightweight making it very easy to move. An added advantage is that 92% of the electricity is converted to heat.

## IMMEDIATELY EFFECTIVE HEAT

The great thing about infrared lights is that they warm people, instead of air, this means there's no lead to build up heat and effective heat is created immediately after turning it on. An added advantage is that 92% of the electricity is converted to heat.

## A GREEN CHOICE

We also thought about the environment, working with infrared means there's no exhaust gases; there's no use of oxygen after all. There's no (direct) CO2 emission and while in use there's no pollution or noise through air- and dust circulation.

## SPLASH-PROOF

The heaters are splash proof and made of weatherproof aluminum, the special isolation prevents overheating of the housing and the grate at the front prevents touching of the halogen lamp. There's no blinding through the use of filtered lamps. Each lamp has around 5000 hours of use.

Surface area with 17°C	heats 12 - 15 m <sup>2</sup>

Product	Heliosia 66
Wattage	2000 watt
Burning hours	5000-7000
Dimensions	510mm x 160mm x 215mm
Weight	2.1 kg
Lamp	Amber light
Protection rating	IP X5 (jet-proof)
Available colours	Anthracite
Connection	5 m cord with separate plug
Fastening	Wall/rib bracket free
Surface area with 17°C	heats 20 - 25 m <sup>2</sup>

Product	Heliosia 77
Wattage	1500 watt
Remote	Dimmable 0-50-100%
Burning hours	5000-7000
Dimensions	475mm x 140mm x 155mm
Weight	1.7 kg
Lamp	Amber light
Protection rating	IPX5
Available colours	Black
Connection	5 m cord with plug
Fastening	Wall bracket included
Surface area with 17°C	Heats 15 - 20 m <sup>2</sup>

## AND 2 TYPES OF LIGHTING

Product	Solero® Accento*
Suitable for mast diameter	34-50mm
LED	Yes
Weight	750 gramss
Fastening	clamps onto mast

Product	Solero® Lux
Suitable for mast diameter	34-50mm
LED	Yes
Weight	750 gramss
Fastening	magnet strip

\*Solero Accento comes for free with an order of a Cielo Pro, Laterna Pro, Fratello Pro and Palestro Pro

## GUTTERS, COVERS & CANVASES

It might not be the first thing you think of, but that doesn't make it any less important: the gutters, covers and canvases for your parasol. Like no other, we understand how important it is to get a good cover with your parasol. You'll protect the canvas against the weather and will help keep your canvas as new. After a few years you might be done with the color of your parasol, in that case we can help you with a replacement canvas. We have all canvases in stock and can be easily exchanged.

We do have cases where a truck hits a hospitality parasol, accidentally bending the ribs. This is extremely difficult because it immediately makes your patio look poor. In most cases however, we thankfully have spare parts available or if necessary order new parts which would be ready within 1 week. This goes for a replacement canvas, or a complete mast, as well. These parts are in stock, so that we'll be able to deliver quickly to you.

## GUTTERS

The easiest way to connect parasols is through canvas gutters, they're often called rain gutters too. We offer 2 types of canvas gutters; the Solero PVC canvas gutters, and the Prostor canvas gutters. The Solero PVC canvas gutters are fastened through clasps that click in place, which are mounted by screwing them into the ribs, they're available in all lengths and in the colors natural, gray and black, the width of these gutters is 60 cm maximum. The Prostor canvas gutters work with a zipper and are available in 2 lengths: 250cm or 300cm in the exact color of your parasol's canvas.

## COVERS

Indispensable to keep the canvas of your parasol in good condition: the protective cover. A protective cover is available for every type of parasol, the Solero covers are provided free of charge when buying a parasol, but are available separately as well. We don't offer any warranty on these covers because of the severe weather they're open to. The covers in the Prostor collection are made of a heavier quality and are available in the colors black or gray.

## CANVASES

Despite the unmatched quality of the Solero O'Bravia canvas it does happen that a canvas needs to be replaced. Sometimes the weather takes hold and it's hard to remove the stains. Especially because of this we offer separate canvases, which include 4 years of colorfastness warranty, so that you're ensured of years of a deeply colored canvas. Our canvases protect against UV-radiation, are waterproof and above all colorfast. Different sizes and colors are available.

## PRINTING

Especially companies dealing in hospitality like to have their company name or logo printed on their parasol, to increase the recognizability of their brand. Printing on a canvas takes quite some effort, that's why we'll gladly do it for you. We work with the best printers who work carefully and pay close attention to get a beautiful result that fits with your style. Solero uses two methods to print a logo or text on canvas: plotting and screen printing. Plotting means that the logo is cut from foil and pressed onto the canvas with heat. This is done under high temperatures so that the glue of the foil binds properly to the canvas. Because of the immense heat on the material, a printer can't heat the same piece of cloth more than 3 or 4 times, otherwise the canvas would shrink. In those cases, screen printing offers a solution, because it doesn't use any heat. With screen printing a screen is put over a frame while the ink is pressed through the open parts of the screen. The screen is based on a template of the logo that needs to be used on the canvas. Both methods are used regularly by us, but in the long term a logo that's been screen printed remains brighter and better.

## THE (DIS)ADVANTAGES OF PLOTTING

### The advantages of plotting:

- Quick turnaround of 1 week
- Cheaper in smaller quantities
- Printing is colorfast
- Metallic colors are an option

### The disadvantages of plotting:

- Limited choice of colors
- A logo with many colors is not possible (>3 colors)
- Plotting is more sensitive to UV-radiation than screen printing

## THE (DIS)ADVANTAGES OF SCREEN PRINTING

### The advantages of screen printing:

- A great price when ordering many logo's
- All colors available
- Printing is colorfast

### The (dis)advantages of screen printing:

- It's very costly with smaller quantities
- Delivery time is around 2 to 3 weeks
- Impossible to do large prints

## .EPS-FORMAT

Each logo is unique and because of that it's difficult to give a good pricing indication without having seen the logo first. Because of that, we always ask that you send us the logo in EPS format, so we can request a proof from the printer and make a good offer for you. We're a great partner for larger projects, and starting at 100 pieces the prices will, of course, be a lot better. A large project does increase the lead time.

## GROUND ANCHORS AND FEET

Every parasol needs a different base. There are often even different types of feet suitable for one parasol. Below you will find an overview of the available accessories per parasol. In most cases, you need 40x40x4 cm tiles which you can stack together to create sufficient ballast.

## COLOURFASTNESS

The light- or colorfastness of our parasols is largely dictated through the use of colors. The Solero parasol canvases are painted down to the core of the fiber, for example like a carrot that's perfectly orange through and through. In comparison to other canvases that are painted after being woven, giving them just a superficial coloring. Cut a radish in half and you'll know what we mean: the outside is red, but the inside has no pigment whatsoever. Our coloring method gives the canvas a great resistance against solar radiation, the black canvas will remain perfectly black for up to 4 years.

---

## WATER REPELLANT

Besides the lightfastness, the water repellent properties are an important factor of the canvas. Of course you'd want you and your guests to stay dry under the canvas during summer rain. This property is defined by the water column. A water column says something about the amount of water that a parasol canvas can withstand before it starts to seep through. A water column of 300mm, like the Solero parasol, means that the canvas will not allow water through until the pressure reaches the comparable weight of 30 cm of standing water. The water column indicates how many millimeters of water per square centimeter can be on the canvas before it starts to leak.

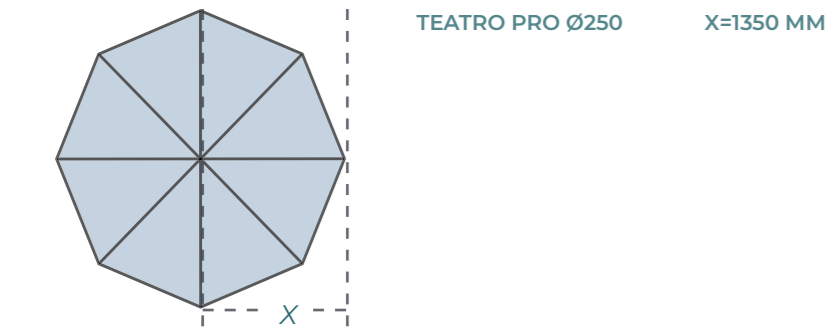

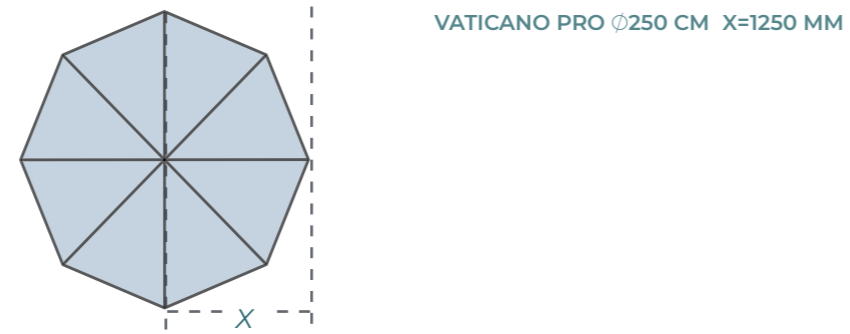

---

## PROTECTIVE

Solero parasols form a good protection against harmful influences of exposure to sunlight. With the decay of the ozone layer less and less ultraviolet radiation is filtered. This means a great quality canvas offering optimal protection becomes more and more important. All canvases filter 100% of the harmful ultraviolet radiation. We note this with a UPF factor of 50+. Exposure to too much ultraviolet radiation can discolor the skin to red, burn it, or even lead to skin cancer. Parasols made by Solero have a UPF value of 50+ and offer good protection, but always stay alert! Ultraviolet radiation is also reflected off the water, snow, glass and sand. Indirectly your skin will still be exposed to radiation.

## CONVENIENT DIMENSIONS

To simplify the installation of your parasol, we have listed all the distances from the middle of the mast to the beginning and end of the cloth below. If you still have doubts, please contact us or one of our dealers.

# SOLERO & THE SKIN FOUNDATION

In the Netherlands, over 1.2 million people have a skin condition. Sometimes temporary, but usually chronic. This can involve itching or pain, but also Het Huidfonds wants to make this topic discussable and is passionately committed to improving the quality of life for these people.

## MISSION OF THE SKIN FOUNDATION

The mission is to create a world in which people are healthy, connected and positive. About themselves and about each other.

*'Love your skin, care for your skin.'*  
That is the foundation of our story.

- ♥ When people are aware of the importance of healthy skin;
- ♥ When we can prevent certain skin problems;
- ♥ When we see each other as we are, not as how we look.

**The skin foundation is a recognised charity organisation.**

The skin foundation focuses on:

- ♥ Preventing skin conditions
- ♥ Better care for people with skin conditions
- ♥ Acceptance of skin that is 'different'

LOVE YOUR SKIN  
CARE FOR YOUR SKIN

## SOLERO'S CONTRIBUTION

As a partner of the skin foundation, Solero supports this foundation in achieving (mainly) their first pillar: Preventing skin conditions. Our special UV-resistant O'Bravia parasol cloths contribute to this.

The Skin Foundation is an independent, fundraising charity organisation. It has the status of a Public Benefit Organisation (ANBI), has the CBF approval for charities from the Central Bureau for Fundraising (CBF) and is a member of the sector organization Goede Doelen Nederland.

# TERMS & CONDITIONS 2019

## ARTICLE 1: DEFINITIONS

1.1. In these Terms & Conditions, the following words will have the following definitions: Solero Trading: The company blancheh limited liability Solero Trading B.V., also trading as Solero Parasols, located at the Industrieweg 210, 5683 CH in Best, The Netherlands, registered at the Dutch Chamber of Commerce under file number 17217199. Buyer: The person or legal entity who enters into an Agreement blancheh Solero Trading by purchasing a Product and either provides for financial compensation, provides for another reimbursement or compensation or who receives a product as a result of a promotional offer made by Solero Trading. Product: The product or products ordered or received by the Buyer as a result of the Agreement and which forms the sum of all elements of the order confirmed in the Agreement. Delivery: The moment on which the Product is delivered to Buyer and the responsibility and management is transferred to the Buyer. Agreement: The Agreement to which Solero Trading and Buyer enter into by mutual confirmation in writing and that has led or will lead to a Delivery.

## ARTICLE 2: APPLICABILITY

2.1 These Terms & Conditions are applicable on all Agreements between Solero Trading and Buyer, unless explicitly agreed upon otherwise in writing.  
2.2 The applicability of any conditions maintained by Buyer are explicitly rejected unless agreed upon otherwise in writing. If any conditions of Buyer do apply to the Agreement, the Terms & Conditions of Solero Trading will still be applicable for those situations wherein Buyer's conditions do not provide for.  
2.3 If any of the conditions or provisions in these Terms & Conditions would be nullified or declared void by an authorized entity such as a Court, all the other provisions will remain valid and intact. If this situation would occur, both parties in the Agreement are bound to determine replacing conditions in which the spirit and the economic effect of the original condition(s) are being maintained to the largest possible degree.  
2.4 If these Terms & Conditions are offered to the Buyer in any other language than Dutch, the non-Dutch version will only serve informational purposes. If any differences in the actual text or possible interpretations occur between different linguistic versions of these Terms & Conditions, the Dutch version will always prevail.  
2.5 If any situation would arise for which these Terms & Conditions do not provide, parties will be bound to determine new conditions that maintain the spirit of the conditions which have been determined.

## ARTICLE 3: QUOTES AND OFFERS

3.1 All quotes, offers and proposals of Solero Trading are non-committal for Buyer, unless explicitly agreed upon otherwise in writing.  
3.2 All quotes, offers and proposals of Solero Trading are valid for 30 days, unless another term has been set forward in the quote or has been agreed upon between parties in writing. Solero Trading is only bound by the offer if the Buyer has accepted this offer during its validity.  
3.3 The quote will become an Agreement from the moment the Buyer has agreed to its terms, either in writing, by fax or by email and only upon written confirmation that this has been received by Solero Trading.  
3.4 If the accepted offer has been changed unilateral by Buyer, Solero Trading will not be bound to the Agreement, unless explicitly agreed upon otherwise.  
3.5 If the offer consists out of multiple elements or Products, Solero Trading will not be bound to deliver part of this Agreement against the corresponding price in the offer.  
3.6 Pricing, discounts and special offers made in a specific offer are only valid for that offer or quote and do not automatically apply for future orders.

## ARTICLE 4: TIME AND LOCATION OF THE DELIVERY

4.1 Delivery of the Product will be done at the address provided by the Buyer and at the expense of Buyer, unless explicitly agreed upon otherwise.  
4.2 Any Delivery moment agreed upon by Solero Trading will always be a best effort moment and is never a strict deadline. Exceeding this moment does not qualify Buyer for receiving compensation or compensation of damages, nor does he gain the right to terminate the Agreement. Once the Delivery term has been exceeded, Buyer shall send a notice of default to Solero Trading, providing for a new and reasonable deadline to perform the Delivery.  
4.3 Solero Trading is entitled to deliver the Product in parts, in which case every partial delivery may be invoiced separately.  
4.4 If Buyer defaults in accepting the Product, Solero Trading is entitled to either store the Product at the full risk and expense of Buyer, or to terminate the Agreement either entirely or partially, blanchehout judicial intervention and notblanchehstanding the right of Solero Trading to claim full compensation for damages occurred.

## ARTICLE 5: RECLAMATION AND TERMINATION

5.1 Upon receiving the Product, Buyer will immediately inspect the Product and be convinced of a fully operational and well delivered Product. Any reclamation blancheh regards to the state of the delivered Product must be send to Solero Parasols immediately but never later than 14 days. After you send the reclamation, you have another period of 14 days for the return process. In absence of which Solero Trading will not be liable for any damages of the Product that occurred previous to or during the Delivery.  
5.2 If Solero Trading accepts a reclamation entirely or partially, it may chose freely to either terminate the Agreement blanchehout judicial intervention and taking back the Product, or to replace the Product blanchehout adding extra charges to the Buyer, or to provide for a reasonable discount on the sales price to the Buyer after which the Buyer may retain the Product.

## ARTICLE 6: TRIAL PERIOD AND RIGHT OF BLANCHEHDRAWAL

6.1 Any purchase is made by a consumer is subject – in accordance blancheh Dutch law (Art. 7:5 BW) – to the right to return any good(s), blanchehout being obliged to state a reason for doing so, blanchehin fourteen business days. This term commences on the day the ordered goods are delivered. If the buyer has not returned the goods to Solero Trading upon the passing of this term, the purchase will become irrevocable. The buyer is obliged to send a written confirmation to Solero Trading blanchehin fourteen business days, stating that the goods will be returned. In addition, the buyer is obliged to collect and save proof that the goods have been sent back blanchehin the fourteen business day term, e.g. by retaining a proof of delivery from the shipment company. Any goods which are sent back are to be contained in the original casing, including any accessories, documentation or any other item received upon order; all in mint condition and/or factory state. If the products have been used, burdened or damaged in any way while in possession of the buyer, the right of blanchehdrawal as meant in this paragraph is automatically void. Subject to all which has been determined in this paragraph, Solero Trading will reimburse the full purchase amount to the buyer blanchehin fourteen days after having received the return shipment in good state. The costs and risks of returning the items are entirely borne by the buyer. Per explicit request, Solero Trading may also assign her carriers to collect the shipment, after which the entire purchase amount minus the shipment costs will be reimbursed blanchehin fourteen days. 6.2 The right of blanchehdrawal is not applicable to goods and services of which the prices are bound to fluctuations on the financial markets, on which Solero Trading has no influence. Nor is the aforementioned right applicable to goods which have been manufactured in accordance blancheh client's specification, such as tailor-made parasols, printed fabrics or other products blancheh an obvious personal character.

## ARTICLE 7: PAYMENT CONDITIONS

7.1 Solero Trading retains the right to demand, at any given moment including the period between entering into the Agreement and the Delivery, an advance payment, an irrevocable letter of credit, a bank security, or another security if reasons of its own would come to exist. If Buyer cannot or will not provide for such a security, Solero Trading has the right to terminate the agreement blanchehout judicial intervention, notblanchehstanding the right to be compensated for the costs, work, (partial) Delivery or other expenses made or delivered up to

that moment.

7.2 All invoices of Solero Trading forthcoming from the Agreement, are subject to a 30 day payment term, unless explicitly agreed upon otherwise in writing.

7.3 If the invoice amount has not been entirely settled on the due date of the Invoice, Buyer will be in state default blanchehout requiring any further formal notice.

7.4 Buyer is not entitled to deduct any discount, compensation or other cost blancheh the invoice amount. 6.5 If Buyer is in a state of default, Solero Trading has the right to suspend any Delivery of any Product up to the moment when Buyer has fulfilled all its obligations, after which a new Delivery moment will be determined at the discretion of Solero Trading.

7.6 If Buyer defaults on its payment obligations, a minimum administration fee of € 50,00 excluding Sales tax will apply, as well as the legal commercial interest blancheh a minimum of 1% of the principal amount per month, all extrajudicial costs according to the Dutch national guideline 'Rapport Voorwerk II', all reasonably made costs made by Solero Trading in order to secure its claim, both judicial as extrajudicial and not limited to capped fees, as well as compensation for all damages suffered by Solero Trading as a result of e.g. but not limited to currency fluctuations, extra government levies or taxes, extra storage or transport costs or other costs forthcoming out of suspending the Delivery.

7.7 If any additional costs do apply on top of the principle amount, any payment of Buyer, regardless of its own appointed sequence, will first be deducted of the additional costs, then the interest and finally the principle amount.

## ARTICLE 8: LIABILITY

8.1 If Solero Trading would be liable to any claim, this liability is limited or excluded according to the provisions of this article.  
8.2 Solero Trading will never be liable for any occurring damages, if it has acted based on information provided by the Buyer that has proven to be inaccurate or incomplete.  
8.3 If Solero Trading would be liable in any case, the maximum amount for which Solero Trading would be liable is the principle amount of the Agreement that contains the liability situation, explicitly excluding previous or future Agreements.  
8.4 Solero Trading will never be liable for indirect damages such as but not limited to consequential damage, lost profits or loss of productivity. Solero Trading can only be held liable for direct damages.  
8.5 Direct damages are limited to: The reasonable costs made to determine the direct damage in economic terms and values, the reasonable costs made to correct the culpable failure of Solero Trading and the reasonable costs made to prevent or limit any further direct damages.  
8.6 Solero Trading will never be liable for errors, damages or defects that are consequential to behavior or actions of Buyer or third parties, or in case of force majeure, including but not limited to war, situations equal to war, riots and public disturbances, earthquakes, storms, flooding, fire, an act of God or any natural disasters, illness, blockades, the impossibility of transportation, strikes or any other impossibility to deliver as such, prohibitions enacted by the government or other authorized third parties. If such cases would occur, Solero Trading will inform the Buyer of this occurrence as soon as possible but possibly later than the Delivery moment and in writing, after which Solero Trading may choose to their fulfill its Delivery as soon as reasonably possible, or to terminate the Agreement.  
8.7 Blancheh the exception of what has been determined in the previous conditions concerning liability, Buyer will safeguard Solero Trading from any claims, actions, costs, losses or damages occurring from or related to the Delivery and/or the Products.

## ARTICLE 9: RESERVATION OF OWNERSHIP

9.1 The Product will be the property of Solero Trading up to the moment on which Buyer has entirely met its obligations regarding to or forthcoming from of the Agreement.  
9.2 The Buyer is explicitly forbidden to encumber, pledge, transfer or in any way use for insurance, any Product for which the ownership has not yet been obtained.  
9.3 If Buyer fails to fulfill its obligations to Solero Trading, or if Buyer it in state of bankruptcy, payment moratorium or a similar state, or if he ceases his activities for a period of 30 consecutive days, Solero Trading is entitled, blanchehout requirement of judicial intervention, notice of default or timely notification, to recollect the Product, whereby Buyer is obliged to render its cooperation to this process.  
9.4 Our Solero O'Bravia is specially designed for sustainable outdoor use. It is possible however that small imperfections emerge after the installation of the parasol: wrinkles or a small difference in thickness of the fiber is inherent to a foldable parasol cloth. The reseller can't be held responsible for samll imperfections on the cloth. Requirements about the weight, water column, stiffness, thickness and colour fastness are determined, and guaranteed by the manufacturer.

## ARTICLE 10: WARRANTIES

10.1 Buyer will receive a warranty on the Product safeguarding against manufacturing defects which are subject to the conditions as set forward in the warranty certificate. The warranty will be void if any defect is the result of Product abuse, negligence, vandalism, improper installation, accidents, exposure to abnormal weather conditions, color fading of polyester cloths or other causes which cannot be defined as a defect by Solero Trading.  
10.2 Defects to the Product are to be reported blanchehin a term of fourteen calendar days and in writing to Solero Trading.  
10.3 If the guarantee claim is granted by Solero Trading, it will provide Buyer blancheh replacing spare parts during the guarantee period.

## ARTICLE 11: COMPETENT COURT AND JURISDICTION

11.1 Blancheh the explicit exclusion of all other jurisdictions, every Agreement is solely subject to Dutch law.  
11.2 All disputes blancheh regards to or forthcoming of the Agreement, proposal, Product or delivery between Solero Trading and Buyer will be solely decided on by the competent court in 's Hertogenbosch, the Netherlands, notblanchehstanding the right of Solero Trading to bring any case to the court in the city of Buyers location.  
11.3 A copy of the Dutch version of these Terms & Conditions has been filed blancheh the Dutch Chamber of Commerce under file number 17217199 and will always be provided to the Buyer before entering into the Agreement.
